

CHEATA

Centre for Healthcare Equipment and Technology Adoption

*Facilitating rapid validation, evaluation and adoption
of innovative medical technology into NHS practice*

Beth Beeson MSc, CEng, HCPC Clinical Scientist
Consultant Clinical Engineer

About CHEATA

- Hosted by Clinical Engineering at Nottingham University Hospitals NHS Trust (NUH), QMC
- Remit is to help the Med Tech Industry to develop innovative products that:
 - Will ultimately benefit both patients and the healthcare system
 - Are truly fit for purpose
 - Have the right evidence within their Value Proposition for more easy adoption by the NHS

Key CHEATA services

Bespoke package of services across the product development lifecycle

- Supporting product development
 - Identification of clinical opportunities
 - Focus Groups (Advisory Board) and KOL interactions
 - Engineering review
- Clinical trials and evaluation studies
- Regulatory strategy/review and CE marking readiness
- Health economic modelling
- Value proposition / health technology assessment
- Advice and support on submission to NICE for inclusion into Guidelines

For Academics/Clinicians

- CHEATA is an integral part of the CHT
- We work closely with academics and clinicians on a variety of grant-funded projects
- CHEATA can provide support for grant application to include CHEATA services
- Inclusion of CHEATA support services into grant applications can help to give confidence to funding bodies that commercialisation and adoption of the product will be facilitated

Commercial Clients

- CHEATA offers competitive, paid for services to the Med Tech Industry
- Being a part of the NHS offers a unique perspective and insight
- CHEATA can help maximise the potential of good innovative medical technology whether pre- or post-CE mark

Supporting Pathway to Impact

- Potential regulatory hurdles
- Supporting feasibility studies
- Support downstream projects
